

**SECTION 5**

**2011 SCHEDULE CALENDAR**

**NOMINATIONS, LIFTING & CYCLE CALENDAR**

Explorer Pipeline Company operates on a basis of three (3) cycles per month and pumps product in the following sequences:

Jet A/Kerosene - Ultra Low Sulfur Diesel - Regular Unleaded Gasoline - RBOB - PBOB - Unleaded Premium - RBOB - Regular Unleaded Gasoline. Some blend stocks and specialty grades move in the gasoline as well.

In order to have product staged to meet this lifting order, cycles will begin at origins on the following estimated dates. NOTE: Consult the current Nomination Calendar for exact dates and times.
